Several at the English Language Camp have benefited from the JFI program.

English Language Summer Camp in Solo

Last summer over 80 youth from the Surakarta (Solo) Stake participated in a two week long English Language Camp at the Stake Center in Solo.

The camp was patterned after a traditional youth conference and therefore included delicious meals, fun activities and games, uplifting presentations and seminars, a talent show, a service project and a dance.

Every day the youth attended English language classes and watched English language movies (17 Miracles and The Other Side of Heaven).

Additionally all of the presentations and talks were offered in both English and Indonesian. Church leaders in Indonesia hope that improved English skills will enable the youth to be better prepared for gainful employment and also to serve missions abroad.

Nine teachers volunteered their

time and talents to help with the camp. Teachers included four returned missionaries (three from the 1970s and one from two years ago) who had served in Indonesia, three BYU students (including the newest RM), two high school students and Sister Rowley, the wife of the mission president.

Returned missionary Robert Brown oversaw the curriculum and teaching. He recently retired from a lifelong career of running English as a second language programs around the world.

To ensure that the English language portion of the camp was an effective learning opportunity, the Jaredita Foundation provided a travel stipend for Brother Brown. It is hoped that in the future similar camps might be held in other areas of Indonesia to benefit even more youth.

2017 Students by Grade Level

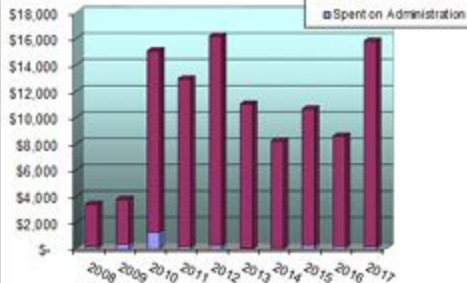

Ten-Year Financial Summary

Students Assisted by JFI

Ten-Year Expenditures

The 2017 donations totaled \$17,324, up by more than \$3000 from the previous year. Of that amount, \$13,113 was received from donations outside of Indonesia while \$4,211 was donated from within Indonesia.

Total expenditure was \$15,807. This is significantly up from the previous year and the highest expenditure since 2012. The increased expenditure is driven by an increase in the number of students assisted. 89 students were assisted by the Jaredita Foundation in 2017 compared to 61 students assisted in 2016.

This is also the highest number of students assisted by JFI since 2012. The year-end balance increased slightly in 2017 because donations for the year exceeded expenditures. The current balance remains strong which

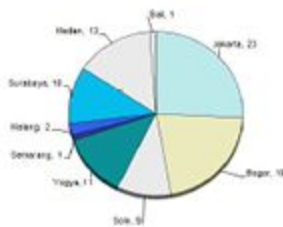

will allow JFI to assist an equal or greater number of students in the coming year.

The board of JFI would like to thank all of the donors for your continued support as together we brighten the future of the rising generation through education.

The colored blocks of the bars in the graphs indicate the various grade levels and post-secondary programs of the JFI students.

The pie charts show the number of students by grade level and where they are located. We thought you might be interested to know the geographical distribution of the students since many of you have been to these locations.

About the Jaredita Foundation, Inc.

The Jaredita Foundation Inc (JFI) is a 501(c)(3) non-profit organization named in honor of Jaredita—beloved daughter of Steffi and Subandriyo. She passed away in 2007 after one year of schooling at BYU-Hawaii and just weeks before she planned to enter BYU-Provo. Jaredita had a love of learning and a love for the children of Indonesia.

The purpose of JFI is to help young Latter-day Saint children and young adults get an education. With the help of in-country facilitators (all are returned missionaries), children who are not able to attend school because their families cannot afford tuition, books and uniforms (about \$11-15 per month) will be offered financial assistance to pay for primary and secondary schooling.

Payments are made directly to the schools. In most instances the fund will pay for half of the school cost with the family paying the other half.

Since educational loans are not available in Indonesia, JFI will also offer tuition assistance for qualified Latter-day Saint young adults to obtain post secondary school training. JFI loan recipients are expected to pay back into the fund once they have graduated and obtained work.

Donors will be sent a yearly report of how the funds were used. We encourage donors to consider arranging to make monthly direct deposits from their bank into the JFI bank account. This will guarantee a more constant supply of funds.

You can also donate at our web site via PayPal or by sending a check to the address below. We are also happy to receive matching funds from employers.

Thank you for supporting this worthy cause. Supporting the educational endeavors of Latter-day Saints in Indonesia will have a lasting positive impact and will bless the lives of many for generations to come. We started in 2009.

Because JFI is an all-volunteer organization, nearly all of the money donated goes to payment of educational expenses of the students being assisted. Only \$206 was spent on administration in 2017. Administration costs include expenses such as bank fees, wire transfer fees, printing costs and the like. Students assisted by JFI apply and are officially accepted into the program before aid is provided. The program pays the student expenses directly.

We sincerely thank all those who have donated to JFI and we ask for your continued support so that we can continue this great service of ensuring that all of the young people of the Church in Indonesia receive a quality education.

Every child is deserved to have a good education because education leads to a better future.

But within the Church, some of the children could not continue their education because of their parents' financial problems.

Thankfully, a generous and kind-hearted member of the Church felt compelled to initiate a foundation called JAREDITA FOUNDATION. He and some of Church's members found ways and raised funds to help these unfortunate children.

JFI has an incredible mission to assist those who cannot afford financially to pursue their education, members and nonmembers. I'm happy to be able to give a little help in this cause as an administrator. Parts of the tasks are transferring funds, requesting reports from coordinators as well as asking the school progress of JEP recipients.

I'm also thrilled to know when JEP recipients, upon their graduation from high school, served missions. Thanks to JEP directors and donors for their generosity, kindness, and the continuous effort to support the children in Indonesia.
